Further Correspondence on the San Juan Question.

FORT VANCOUVER, W. T.,
10th May, 1860.

Brig. Gen. HARNEY, U. S. A.,
Commanding Dept. Oregon, Vancouver, W. T.

SIR,—I beg leave to address you on the subject of the recent occupation of San Juan Island by American troops, in which my name has been so freely and unwarrantably made use of, and to give the most unqualified contradiction to the part attributed by you and others to me, as having given occasion to that act.

I can come to no other conclusion, but that you were imposed upon, in making and acting upon the statements contained in your letters of 7th, 8th, 25th and 29th August, to the Adjutant General, to Governor Douglas on the 6th August, to Captain Pickett on 18th July, and to General Scott on 19th July.

1. Though the son-in-law of Governor Douglas, I have no connection with, nor influence whatever in, the affairs of Government; nor has he any interest, directly or indirectly, in the affairs of the Hudson's Bay Company, on the contrary, the respective interests under our care are rather conflicting and antagonistic.

2. It has been frequently stated that I am a member of Council of Victoria. This is not the case. I hold no office, honorary or otherwise, under the Crown or Colonial Government.

3. I am not a Chief Factor in the service of the Hudson's Bay Company, as has been stated, but a Director of the Company, and President of Council in North America.

4. I never visited the Island of San Juan in any man-of-war. My arrival there on the afternoon of the day upon which Cutler committed the trespass, was purely accidental. I landed from the Company's steamer Beaver, used solely for purposes of trade, accompanied by two friends. Next day, accompanied in addition by Chief Trader Griffin, our agent upon the Island, we took the opportunity, in passing Cutler's hut, or tent, to call upon him. I remonstrated with him in regard to his offence, which he admitted, offering to pay the value of the animal killed, which was not accepted. No demand of \$100, or any other sum of money, was made upon him, nor did I threaten to apprehend him, or take him to Victoria. On the contrary, I stated distinctly that I was a private individual, and could not interfere with him. I have fortunately three unimpeachable witnesses to prove this. Cutler was perhaps alarmed at seeing four of us approach him on horseback, and conscious of being in the wrong, not unnaturally took it for granted we had come to seek reparation. After some further general talk, in the course of which Cutler threatened to shoot any more of our animals that might interfere with him, we rode away, and the only further notice taken of the affair by me, was in a conversation held with Governor Douglas, when I suggested to him to appeal to the authorities of Washington Territory, requesting them to restrain their citizens on San Juan Island from committing further trespasses. He declined to adopt my suggestion, and the matter dropped.

5. Cutler did not use any threat to me, and I gave him no cause to do so. What has been dignified by the name of his "farm," consisted of a very small patch of potatoes, partially fenced on three sides, and entirely open on the fourth. The boat was shot in the adjoining forest. With a stock of 5,000 sheep, and a number of horses, cattle, pigs, etc., it will be apparent to you that it would have been impossible for us to restrain any of these animals from committing depredations on such "farms" as Cutler's. The loss and annoyance occasioned to us by squatters in the midst of our sheep runs, must be also equally apparent. Under circumstances of great provocation, the utmost forbearance has been invariably exercised by the Hudson Bay Company towards American squatters and others.

6. The Hudson Bay Company has never threatened to stir up the Northern Indians against American citizens on San Juan Island, or elsewhere. On the contrary, we have always cautioned them to treat American citizens as friends and brothers. The policy of the Hudson Bay Company has been always a peaceful one.

7. I cannot, as you state, use a British ship of war without the authority of Governor Douglas, or the British Admiral, nor have I done so, or ever attempted anything of the kind. No British ship of war has to my knowledge taken the slightest supervision over the affair of the Hudson Bay Company.

8. In your letter of the 29th of August to the Adjutant General, you say: "A British man of war lands Mr. Dallas, the Chief Factor of the Hudson Bay Company, who abuses one of our citizens in the harshest manner and threatens to take him by force to Victoria for trial and imprisonment. Finding the citizen resolute in the defence of his rights, the Americans were informed the British Indians would be sent down upon them, to drive them from the Island. I shall substantiate these facts, by the affidavits of American citizens of good position and character as cannot leave a doubt of their truth, and showing the attempted denial of Governor Douglas in his communication of the 13th instant, is only a quibble." On reference to the affidavits of Paul K. Hubbs,

junior, and Lyman A. Cutler, I find it certified that I landed from the Hudson Bay Company's steamer "Beaver." I also find in a memorial to yourself, from the American citizens, resident on San Juan on the 10th of July, the memorialists state that but for the timely aid of the Hudson Bay Company, the United States Inspector would have fallen a victim to the savage designs of the Indians. Such is the manner in which the accusations brought against me are substantiated.

9. I cannot conclude without taking notice of a letter from Paul K. Hubbs, of Port Townsend, under date 3rd of September, addressed to the President of the United States, in which he states that Governor Douglas is the Chief Director of the Hudson Bay Company. This is, as I have already stated, utterly untrue. Another portion of Mr. Hubbs's unintelligible letter, in so far as I can understand it, states that the Hudson Bay Company, with half-a-dozen armed steamers, did land and go to the man "that shot the bear," and that "five of them" (the steamers I presume) "could not take him, but threatened to send the Plummer, a British frigate for him." The "Plummer" is a small and well-known surveying bark, and this whole statement is too absurd to require refutation. It is only the fact of the letter of a private individual containing some statements as false as others are untenable, having been addressed to the President of the United States, and circulated by him, which induces me to notice it at all.

As the representative of a large public company, I feel compelled to come forward thus emphatically, to contradict the misstatements and accusations which have been so repeatedly and extensively circulated regarding the company and myself. I have endeavored to do so as cautiously as emphatic denial would admit, and with the view also of removing from your mind any misapprehension which might still exist, under a complication of circumstances in regard to which you have evidently been misinformed.

I have the honor to remain, Sir, Your most Obedient Servant,

A. G. DALLAS.

PORT TOWNSEND, W. T., Sept. 3, 1859.

ESTEEMED SIR:—I find that we have some disappointed or annoyed gentlemen (by the recent movement of General Harney) that are puffing the letter of Governor Douglas in reply to that of General Harney.

The General, it seems, did not say in his letter anything relative to the roads and murders committed by the Northern Indians, but confined himself to the immediate subject of grief, that of threatened taking of an American citizen to Victoria for trial.

How beautifully the Governor, in his reply, "finesses" out of. In substance, he says that "the government did not threaten," etc., all of which is true, theoretically; but partially, the Hudson Bay Company, with half-a-dozen armed steamers, the government Governor being the head of the Company, and his son-in-law, Mr. Dallas, the Chief Director, and the power that practically moves the Hudson Bay Company and the Governor, did land and go to "the man that shot the bear," and threatened to take him on board his steamer (not the government steamer, but that of the Hudson Bay Company) to Victoria; and finding they (five of them) could not do it, left with a threat to send the "Plummer," a British government frigate, for him, and, as I am reliably informed, did afterwards put the magistrate on the Island who sent three times after him, every time being watched by our peace officers and posse with reliance on our government officers and men.

Very truly yours, etc.,

PAUL K. HUBBS.

I am not personally acquainted with General Harney, but his timely aid, and position taken, meets the unbounded admiration of the citizens of this Territory.

P. K. H.

His Excellency the President, James Buchanan.

An American's Opinion of our Queen.

The following, from the pen of the editor of the Portland Daily News, shows the estimation in which "England's Queen" is held by our American cousins:—

"The 24th day of this month is a notable day with the British people, in every corner of the world. In the British Isles themselves, in Canada, in India, upon the shores of Puget Sound, and upon the banks of the Peiho, away up on the waters of the North Saskatchewan, and Hudson's Bay, and along the flat margin of the mysterious Nile, myriads of human voices, and the roaring of ten thousand cannons, have, ere this, hailed the first natal day of the best Queen and most accomplished lady who ever pressed the English throne. The present Queen of England was born on the 24th day of May, 1819, ascended the throne on the 21st of June, 1837, and married Albert, Prince of Saxe-Coburg-Gotha, on the 10th February, 1840. In a little less than a month she will have completed the twenty-third year of her reign, embracing a period more eventful, perhaps, in the history of Europe and the world, and more replete with scientific improvement and the advancement of our race, than any similar period since the Christian era. During the term of her reign, the British people, both at home and abroad, have attained a great degree of enlightenment, have enjoyed a more liberal government, have profited by a more extended policy, and have been blessed with a greater prosperity, than ever before; and the affection with which Englishmen regard the person of their sovereign, attests their appreciation of the character and qualities which have contributed to place their country in such a proud position. Nor is it alone in her public character that the grand-daughter of the "first gentleman of Europe" challenges admiration and respect. She is as estimable in her private life. In her relations of wife and mother, she has shown us that a human heart may beat warmly beneath the purple vestures of royalty, and that a golden crown need not always bring aching to the head of the wearer. American, we cannot help echoing the sentiment of our brethren across the water, and say, warmly, 'God save the Queen!'

EXTRAORDINARY OCCURRENCE.—Early on Friday morning, two men, named M'Cullum and Gray, were filling two carts with dross, at the Eastfield Colliery, Glasgow, when the latter, according to his own account was startled by a voice calling his name. Gray and M'Cullum are then said to have gone round the heap of dross, and finding no one, went as far as the pithead, but still no person was visible. Shortly afterwards, a man, named Michael M'Murphy, came up and said, "Don't you hear a man calling out of that cart?" The two men laughed at the expression, and then mounting the cart, they pressed down the dross with their feet until

it was quite compact. They then heaped up the carts, and M'Cullum returned in charge of them to St. Rollox. When about to empty them there, he remarked to a labourer, named James Torrens, who came to his assistance, "Take care of that second cart, for there is a man in it." He said this in a jocular manner, but when the contents were emptied, the dead body of a man was thrown out, and along with it a corn-bag, which M'Cullum remarked to Gray he had lost on the road. The deceased was a young man named Murdoch Munro, and it is conjectured that he entered the cart on the road in a state of semi-intoxication, without M'Cullum perceiving him, taking along with him the corn bag which was missed, M'Cullum and Gray were at once taken into custody, but they have since been liberated, the Sheriff's authorities considering there was nothing to show that culpability in any degree attached to either of them.—North British Daily Mail, April 10.

Model Statesmen.

In other countries, statesmen, ripe in years and experience, with every information as to the financial condition of their country before them, are often puzzled to shape the annual budget so as not to be burdensome to the people. Here, however, the maiden statesmen who occupy the government benches, vote £800 a year for half the time of a Governor, and £800 for a Chief Justice—are prepared to vote on till £15,000 are voted away, with contingencies amounting to £9,000 more; and yet they are without a particle of information as to the fiscal condition of the country, with the lands and minerals still owned by the H. B. Co., and not one of them knows whether the lands and minerals will be transferred to the Imperial Government this year or in 1870, or if ever to the colony. Such men are certainly models; but not models worthy of imitation.

Never, in the history of England's fifty colonies, were there such a reckless disregard of the public weal displayed; and never, perhaps, will there be again, when the Obstructives, rank and file, are displaced. Some excuse could be made for British Columbia not providing within £42,000 of what was necessary to meet the expenditure of 1858. The circumstances of that country were extraordinary; everything was undeveloped, and everybody on the move.

Very different is the case here. A healthful feeling is visible in every department of industry. The resources of the country can be estimated; and its past liabilities ought to be known. Still, situated as we are, an enormous liability must be shouldered, without data or consideration; every man's person and property taxed to meet it; and that by men without any experience—mere men of straw.

Sixteen hundred pounds, or \$8,000, have been voted for two officers, making to each inhabitant an annual tax of nearly \$3 per head; and yet this is only a ninth part of the revenue required, or the taxes to be paid. That some public demonstration ought to be made is self-evident,—as it is utterly to suppose that the Speaker and six members, out of thirteen, represent the country. One of the six, whose election was secured by the shameful proceedings of the Government, deserted his position on the Foster resolution; another has no right to sit in the House, and according to his own admission a committee of the House left a reflection on his character; a third is a perfect mummy; a fourth is in the market for an office, (we hope he'll get it); a fifth was elected for Victoria through falsifying his principles, but with no chance again; thus leaving only two, Helmcken and Telford, who can, with any regard to truth, be said to be elected by the unrestricted suffrages of a constituency.

Even when all the government side are numbered—Speaker and all—there is only a majority of one. When he is in the chair, there is an exact balance in the votes, so the casting vote devolves on him. With such a majority, so constituted, nothing could be more suicidal for the country than to suffer six men of sterling integrity, ability and wealth, having the entire confidence of the country, to be overruled, and the best interests of the country retarded, and its credit jeopardized, without making a demonstration that will strike terror to the hearts of evil-doers.

SAN JUAN.—Rome, it is said, was once saved from pillage by the cackling of a flock of geese; the United States and England on the contrary, were very nearly plunged into a war because a man named Cutler killed a hog. The former occurrence has passed so long for authentic history, that we shall not attempt to disturb it; but the history of the origin of the Cutler-hog imbroglio, has been so distorted by American citizens and officials, that we are glad A. G. Dallas, Esqr. has furnished, in the letter in another portion of this paper, a complete refutation. The numerous statements about Her Majesty's ships carrying Hudson Bay Company officials to San Juan in July last, were so well known on both sides of the water to be without a shadow of foundation, that we thought them undeserving of notice. On examination, however, of the papers laid before Congress in relation to the San Juan difficulty, it appears that Gen. Harney was so far imposed on as to send among them the story of the killing of a Hudson Bay hog by Cut-

ler, with all the subsequent embellishments from an advanced guard of the glorious democracy. The historical paper furnished by Mr. Dallas will for the future act as a quietus to the extravaganzas of patriots; and furnish an opportunity for P. K. Hubbs, junior, sub-Inspector of Customs at San Juan, to study epistolary writing, and be cautious for the future to adhere to facts in his official correspondence. Among other things laid before President Buchanan was a statement that "the British Colonist is the Government paper," and that the extracts from its columns (submitted) were semi-official. We plead not guilty to the charge; not wishing to be misrepresented at the White House. Judging from the wonderful power of imagination exhibited in our case, we can easily conceive that others have suffered severely from the same cause.

PROBABLY ANOTHER CHILD MURDER.—On Tuesday noon, a boy about 10 years of age, belonging to the Songish tribe of Indians, and whose relations reside across the bridge leading to Esquimalt, while walking along the open space between Dr. Tuzo's house and Gov. Douglas' residence, was set upon by an Indian of the Stickeen tribe, and stabbed twice in the back, and horribly gashed in the throat. The little fellow, who had separated from his friends a moment or two before, was found a short time afterwards lying bleeding on the ground; but the cowardly assassin had succeeded in making his escape. The wounded child was taken to his home in the afternoon, and attended by Drs. Trimble and Bailey, who kindly dressed his wounds. We learn, however, that there is no chance for his recovery. The inhuman perpetrator of the deed is supposed to have been actuated by a desire to avenge the death of the Stickeen half-breed boy, whose body with its throat cut, was found floating in the bay near the Songish encampment, about two weeks since. We are afraid we shall have many such damning deeds to chronicle hereafter, as the authorities seem to wink at their commission.

HAD TO CUT AND RUN.—Wm. Ball, a waiter at the Royal Hotel, went on a strawberry picking expedition, on Tuesday afternoon, on the Esquimalt road. He had not been long engaged picking the berries, when he was ordered to leave by a stalwart Indian, who declared that the fruit belonged to his tribe. Ball remonstrated, when the savage raised a whoop, and his brethren came pouring in from all directions, and Ball, to avoid injury to his person, "clattered."

BURGLARY AT ESQUIMALT.—The Esquimalt House, at Esquimalt, was robbed yesterday morning, before daybreak, of a quantity of liquors and other articles. Upon rising in the morning, the proprietor discovered his loss, and on looking about in the neighborhood, found a portion of the stolen property in the house of a man known as "Jack the boatman." Warrants were issued yesterday for the arrest of two others who are supposed to have been his accomplices in the affair.

THE GOVERNOR'S ILLNESS.—The report that Governor Douglas was dangerously ill at Hope, is incorrect. We learn from good authority that the Governor was complaining for about twenty-four hours at that place, but so far recovered the next day as to proceed on to Yale. We heard of his slight illness and recovery on the arrival of the Wilson G. Hunt from her last trip.

DELUGE BENEFIT.—The Colonial Theatre was filled to overflowing last evening, on the occasion of the benefit given to Deluge Engine Company, No. 1, by Mrs. Geo. Chapman. The theatre was very tastefully decorated with flags, and Mr. and Mrs. Forbes, supported by the Chapman family, amid oft repeated applause, gave entire satisfaction to all present.

FUNERAL OF CAPT. DODD.—The funeral of Capt. Dodd was numerously attended on Tuesday. The body was followed to the grave by a large number of the H. B. Co.'s employes and many citizens.

NEW CLOTHES.—Several members of the chain-gang were yesterday furnished with new shoes and overalls, by order of the Commissioner of Police.

THE "LABOUCHERE."—This steamer left to complete the trading expedition, which was interrupted by the illness of the late Capt. Dodd, yesterday.

RESIGNATIONS.—It is currently reported that Sheriff Heaton had resigned; and that Chief Justice Cameron intends to send in his resignation.

THE STEAMER.—The steamer may be looked for this morning. She will bring the European and United States mails.

ARRIVAL OF THE "CALEDONIA."—The steamer Caledonia arrived yesterday morning from New Westminster. The news is unimportant. A large number of miners are waiting at the towns along the river for the water to fall. The river is very high, and large quantities of drift-wood comes "booming down." Jeffray and Co.'s Express came down by the Caledonia.

THE "JOHN T. WRIGHT."—This vessel, intended for a steamship, arrived in our harbor on Tuesday, under sail. The Wright is on her way to San Francisco, to take in her machinery. She will be towed as far as Columbia River, by the Otter.

THE "MASSACHUSETTS."—The U. S. steam-transport, Massachusetts, arrived at Esquimalt harbor on Tuesday, from the Sound, and was greeted with a salute from the Admiral's flag-ship, Ganges.

ROBBERY OF A WATCH.—A man named Prince, belonging to the U. S. steamer Massachusetts, was robbed of a gold watch on the Esquimalt road, after dark on Tuesday evening. The watch was worth \$150, and is supposed to have been taken by Indians. The loser was intoxicated at the time.

SHIP ARMISTICE.—It was stated in our last issue that the ship Armistice had touched on the rocks at the entrance of the harbor, while coming in. This is incorrect. Her keel merely touched on the point of the sand-spit, but without injury.

THE parties arrested on suspicion of attempting to steal the H. B. Co.'s scow, were yesterday discharged by Judge Pemberton, no evidence to criminate them being forthcoming.

Terrible Calamity—Five Men Drowned.

The launch of H. M. S. Satellite, containing eleven men, was upset yesterday afternoon, whilst going from Esquimalt to Albert Head for water, and five of the crew were drowned. There was no officer in the boat at the time. The particulars had not been received at the time of our going to press.

APPOINTMENTS.—Capt. Swanson has been appointed Chief Trader for the Hudson Bay Co. on the Northwest Coast, vice Capt. Dold, deceased, and Capt. Lewis late of the Beaver, succeeds Capt. Swanson in the command of the Labouchere.

INDIAN FIGHT.—The Songish and Stick-een Indians were burning powder and wasting ball last night at a great rate, in fighting with each other, but we heard of no damage being done to either side.

Wm. Spence, for being drunk and exposing his person, was fined 5s. in the Police Court yesterday, and compelled to give bonds for his future good behavior.

Cork-cat-not, a Stickkeen clootchman, for beating Agnes Antoine, and breaking windows, was yesterday sentenced to two days' imprisonment and to lose her hair.

The steamer Otter left for Columbia River last evening.

Later from Oregon and the Sound.

The steamer Eliza Anderson arrived from the Sound on Tuesday morning, at 10 o'clock. She brought Portland, Oregon, and Washington Territory papers, to the 2nd inst.

We are informed by Mr. Deyo, from Seattle, that a man named George Orr, a settler on the Duwamish river, in King county, was killed by being thrown from a horse a few days since. The deceased is supposed formerly to have been a sailor, and a native of England.—*Olympia Pioneer.*

The bill for the completion of the military roads in Washington Territory passed the House of Representatives May 12th.

A little girl, aged six years, daughter of a Mr. White, was found floating in the river, in front of the city, yesterday afternoon. It appears that the child strayed away from home some time during the forenoon, and, by some means unknown, fell into the water.—*Portland Times.*

The Portland News says that a U. S. soldier was drugged in that city recently, and robbed of all his money. The drugged liquor had such an effect upon him that he died in a few days.

The Democrats and Republicans in Oregon are preparing for a grand campaign. The elections, shortly to come off, will be hotly contested.

House of Assembly.

Tuesday, June 5, 1860.
House met at 3 o'clock. Present—Speaker Helmcken, and Messrs. Coles, Franklin, Cooper, Gordon, Cary, Waddington, Southgate, McDonald, Green, Foster, Crease, Tolmie.

Mr. Coles presented a petition from Wm. Steinger and Christian Ocketer, setting forth that the late Sheriff Andrew Muir had informed them, in Dec. 1858, that no license was required for the manufacture and sale of beer, and that on the 7th day of May last they were arrested for selling beer without license; the petitioners state that they can remove the beer to this colony free of duty, and sell the license.

Mr. Coles stated that their removal would injure the farming interests, and gave notice that he would introduce a bill to regulate the manufacture and sale of malt liquors.

It was moved that the House go with Committee on Supply.
Mr. Foster—We have been promised information in regard to the state of the Colony previous to examining the Estimates. The Governor has left, and no information has been laid before us. No member will say that the Estimates are not required; but evidence has been given as to the competency has existed in the management of the affairs of the Colony, and we must have information. I ask, Mr. Speaker, that the whole matter be deferred until we receive necessary information.

Mr. Waddington agreed with Mr. Foster. There are £4000 lying over from last year and we have no information regarding it. We were told last week that the Governor would be here, and he has not yet come. We should wait until his return before we go into Committee on Supply.

Mr. Cary asked if any information had been asked from the government offices in regard to the accounts.

The Speaker—A resolution has been sent in.
Mr. Foster—The most clear information was promised to this House, and we have been told that the Estimates would not be asked for until the information was furnished.

Mr. Cary said it was not until the 26th May that the Governor was asked for the information. What we require to examine into to-day, is the amount which is necessary—not the way in which we are to raise it. The House has been organized three months, and nothing has been done towards furnishing the supplies, which should have been the first business done.

Mr. Cooper—It seems to me there can be no dissensions in this House. The information sought should certainly be laid on the table before we go into committee on the supplies.

Mr. Foster, in explanation to Mr. Cary, stated that it was not right to require of this House to ask the Governor for information. In every other British Colony, the information is given voluntarily. I would again ask that this matter be laid over until the required information is furnished by His Excellency.

The amendment was lost, and the original motion carried. *Ayes*—Tolmie, Cary, Franklin, Southgate, Green, Gordon, *Noes*—Foster, Coles, Cooper, Waddington, McDonald.

The Speaker called Mr. Waddington to the chair. Mr. Waddington—I do not believe we are acting constitutionally. I do not think it is right that we should go into this examination, until we know something about our affairs. I think the House has been exceedingly ill-treated, and I decline to take the chair.

Mr. Franklin—The gentleman is not acting in a parliamentary manner. He should take the chair, and bow to the will of the majority. [Hear, hear.]

Mr. Waddington—I shall certainly do whatever the House orders; but I say again, I think we have been ill-treated. But if you insist upon my taking the chair, I shall do so under protest.

Mr. Cary—If the gentleman does not take the chair, the House can never come to an adjournment, and would be able to transact no further business. The House would have to be dissolved.

Mr. Foster wished to know who transacted Executive business, during the Governor's absence? Mr. Helmcken—The senior member of the Council.

Mr. Waddington finally took the chair, but stated his protest was based upon a desire to preserve the dignity of the House.

Mr. Foster thought it would be as well for the House to consider the amount of salary this colony can afford to give the Governor. He thought that British Columbia, being a far richer colony than this, should bear the heavier portion of the Governor's salary.

Mr. Franklin thought we had no right to consider His Excellency's position in regard to British Columbia, whilst discussing the question of his salary as Governor of Vancouver Island.

Mr. Coles agreed with Mr. Foster; we should regulate the amount he received from British Columbia.

Mr. McDonald—We are not called upon to pass an opinion on these Estimates; we are merely asked to provide for a deficiency of £2,539. There is no use wasting time over the Estimates as we did over the Stamp correspondence. [Hear, hear.]

Mr. Cary read from the Governor's message, accompanying the Estimates, in which it was stated that the salaries were to be fixed by law. It really is the duty of this House to consider what supplies are necessary to carry on the government.

Mr. McDonald—We are not called upon to give any opinion; our power amounts to nothing. There is no use considering the Estimates; we are not asked for an opinion.

Mr. Foster—We should not go on with this matter until we have an honest, upright statement of affairs. We ought to see the lands of this colony in our possession. I think it very injudicious for the members of this House to go into this business without knowing the beginning, and who can foretell the ending? If we had the lands in our possession, we might grant funds.

Mr. Tolmie thought the House had a perfect right to consider the amount of time consumed by the Governor in attending to the affairs of the sister colony, and moved that £800 per annum was all that should be allowed for his salary.

Mr. Cooper moved that the Committee rise and report progress.

Mr. Franklin—This matter has been brought before us in a peculiar manner. [Hear, hear.] He opposed the rising of the committee, and thought that before the Estimates were adopted the information would soon be furnished.

Mr. Cooper's motion to rise was put and lost.

Mr. Green moved an amendment that the Governor's salary be fixed at £1000 per annum.

Mr. Cooper wished to know what the word "proportioned" meant in the amendment of the hon. member, Dr. Tolmie?

Mr. Tolmie said the hon. gentleman ought to be the last to ask such a question. [Probably alluding to Mr. Cooper's official position as Harbor-Master of British Columbia.—*Rep.*]

Mr. Cooper—What do you mean?
Mr. Tolmie—I repeat my assertion.

Mr. Cooper—You shall not repeat what is incorrect, at any rate. I am a Vancouverian—not a British Columbian.

Mr. Crease thought we were working on poor ground. In the absence of correct and full information, we should place the Governor's salary down to the very lowest. There is such a thing as right and wrong, and I believe the public will yet find out the distinction, and will mark its men accordingly. I trust that every member in this House will see that this is a most important case in the country's affairs. I do not see how, possibly, we can hold together as a colony, if we vote supplies which we have no right to do. It is wrong—it is dishonest! [Loud cries of hear, hear.]

The question was taken on Mr. Green's amendment, allowing the Governor £1,000. Lost.

The question was taken upon Mr. Tolmie's amendment, allowing the Governor £800. Carried. *Ayes*—Foster, Gordon, Helmcken, Coles, Cooper, Cary, Southgate, Tolmie, McDonald, and Crease. *Noes*—Franklin and Green.

Mr. Cary moved that £800 per annum, be allowed the Chief Justice, and

Mr. Crease proposed, as an amendment, that £600, per annum, be allowed the Chief Justice.

Mr. Gordon offered an amendment, that the salary be fixed at £700.

Mr. Franklin stated that he had lived in a country where they did not pay their Judges well, and the consequence was they were not honest. He hoped to see the Chief Justice well paid.

Mr. Cooper said he objected to voting any salary for the present Chief Justice. He was opposed to seeing Judge Cameron in the position he now occupies; had said so years ago, and repeated it now. The Chief Justice is incompetent, and I appeal to the members of the Bar in the House if I am not correct.

The Chairman stated that the remarks of the hon. member were not in order.

Mr. Coles—I am in favor of granting a good legal man a good salary, and I move the insertion of provision to the effect—"that none but a regularly qualified legal gentleman be allowed to draw the salary."

Mr. Foster thought a salary in keeping with the office should be granted.

The amendments fixing the salary at £600 and £700 were lost.

Mr. Cary moved that the Registrar's supplies be voted. A long discussion as to the propriety of taking up the salaries of subordinates before settling those of the heads of departments ensued, pending which, at 6 o'clock, the Committee rose and reported progress, and the House adjourned to Wednesday, at 3 o'clock.

WEDNESDAY, June 6, 1860.

House met at half-past three o'clock. Present, Speaker Helmcken, and Messrs. Green, Crease, Cooper, Waddington, Southgate, Cary, Foster, McDonald, Tolmie, and Franklin.

Mr. Waddington, after the reading of the journal, said he had taken the Chair in Committee of the Whole under protest, but he did not see his protest on the journal.

Mr. Crease said the protest should have been presented at the time of the objection being made.

Mr. Cooper—We have been told that the senior member of the Council acts as Governor, but I learn that he too has gone to British Columbia, consequently we are without a head.

Mr. Waddington—I will not say the heads of the Government have absconded, but their absence looks very much like it.

Mr. Cary hoped such remarks would not be allowed; and the Speaker stated there was nothing before the House.

The House went into Committee of the Whole, on the Bill to extend the provisions of the Joint-Stock Act to Vancouver Island and its dependencies.

Mr. Waddington in the chair.

After the consideration of seven sections of the bill, the committee rose and reported progress; and the House went into committee on the bill for the improvement of stock, pending which the committee rose, and the House adjourned till Thursday, at 3 P. M.
